

POLICY GOVERNING RESEARCH REQUESTS

1. REQUESTS for the USE OF CLL CANADA MEMBERSHIP LIST FOR RESEARCH STUDIES

Privacy legislation does not allow for sharing the membership list, including emails, for any research.

2. REQUESTS FOR PARTICIPATION OF CLL CANADA MEMBERSHIP IN RESEARCH STUDIES

All requests for membership participation in research related to CLL patients and/or caregivers will be reviewed by the Board Directors for a) relevancy, quality, and COI issues and b) affiliation with a university. All projects must have an objective to improve outcomes for people with CLL. If deemed appropriate, the request will be circulated to the Board and/or membership to self-nominate by responding directly with the researcher involved. Board Directors who choose to participate do so as an individual and do not represent CLL Canada Board.
